

Part 1: Your site and tree information

- Use the Field Guide p17-25 to help fill in this form.
- Please use one sheet for each tree you track.
- Fields marked * are mandatory, other fields are optional.

Site name*	Location	Recorder name*	Date of visit*

Canopy measures (m)	
1	
2	
3	
4	

Understorey area	
	No. Trees
	No. Young trees
	No. Young coppice

Tree species*	Tree ID*

Aspect*

Girth of tree at breast height (m)*

Woodland characteristics within 25m of tree	
Density of woodland*	OW: Open woodland
	DW: Dense woodland
	VW: Varied woodland
Other characteristics	WM: Woodland is mixed species
	WD: Dominated by one species
	WP: Woodland planted in last 30yrs
	RC: Recent coppicing
	HC: Historical coppicing

You can upload a photo of your tree online.

How you selected your tree*	
	Selected randomly using dice method
	Selected randomly using another method
	The only suitable tree present
	Selected non-randomly

Distance to edge of woodland	
	Less than 50m
	50-100m
	100m+

Part 2: Your phenology observations

- Use the Field Guide p25-28 to help fill in this form.
- Please use one sheet for each tree you track.
- Fields marked * are mandatory, other fields are optional.

Site name*	Tree ID*	Location	Recorder name*

Key A: Tree phenology

NB: No budburst **FL:** First leaf
FB: First budburst **PL:** Partial leaf
PB: Partial budburst **EL:** Entire tree in leaf
EB: Entire tree budburst

Date of visit*	Tree phenology* <i>Use Key A</i>	Amount of tree observed <i>Use Key B</i>	Flowering plant phenology* <i>Use Key C</i>								Bramble cover <i>Use Key D</i>
			Lesser celandine	Primrose	Wood anemone	Wood sorrel	Greater stitchwort	Ramsons	Bluebell	Red campion	

Key B: Amount of tree observed

WT: Whole tree
L: Lower branches only
U: Upper branches only

Key C: Flowering plant phenology

If species is absent, please leave blank. If species is present, count how many flowering stems there are:

0	11-25	Over 100
1-5	26-50	
6-10	51-100	

Key D: Percentage bramble cover

0%	51-75%
Up to 25%	Over 75%
26-50%
